DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Oka et al (5,143,377). Oka discloses a golf ball comprising polygonal dimples. The dimples are placed within phantom spherical triangles on the surface of the ball (fig 14). At least 50% of the dimples are polygonal and none of the dimples cross the compartmenting lines or great circle. Figures 5-14 disclose dimple coverage greater than 70%.

Double Patenting

Claims 20 and 21 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 6 and 7. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

Claims 1, 3, and 5-17 are allowed.

Response to Arguments

After further consideration the indicated allowability of original claim 9 is withdrawn.
